- ← the launcher
- .env
- ← database credentials

 .env	5/13/2026 3:42 PM	ENV File	2 KB
 attendance-app.tar	5/27/2026 11:39 PM	WinRAR	649,371 KB
 AttendanceStation	5/28/2026 12:05 AM	Application	26,806 KB

Figure 1: Required files

PART 2: The Requirement should be in one folder (example: folder "Attendance-app")

****Create a folder and renamed as the example above (e.g “Attendance-app”)****

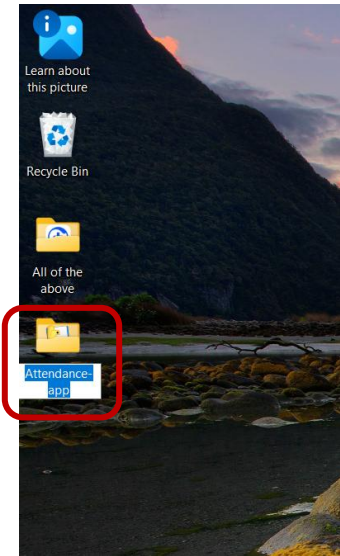

Figure 2: Create Folder

****The file should be look like the format below****

Attendance-app/

- attendance-app.tar
- ← the app (Docker image)
- AttendanceStation.exe
- ← the launcher
- .env
- ← database credentials

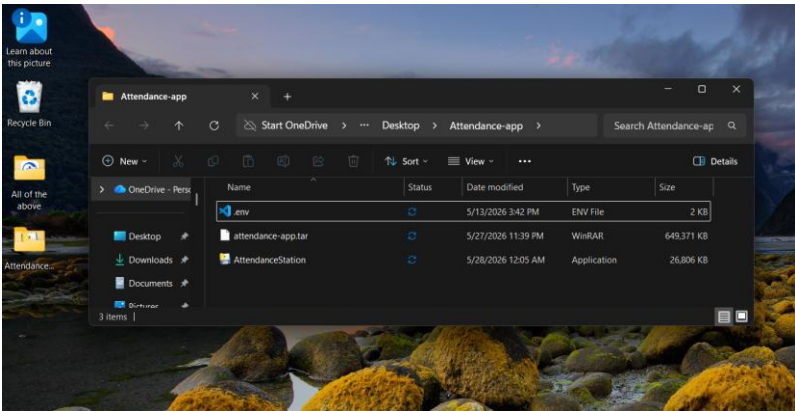

Figure 3: Files in folder format

PART 3 — Setup on Each Classroom LAPTOP (ICT does this once)

Step 1 — Install Docker Desktop

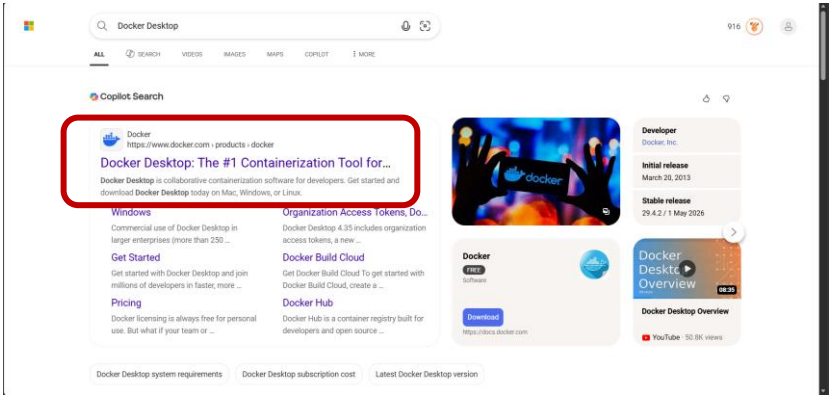

Figure 4: Search “Docker Desktop”

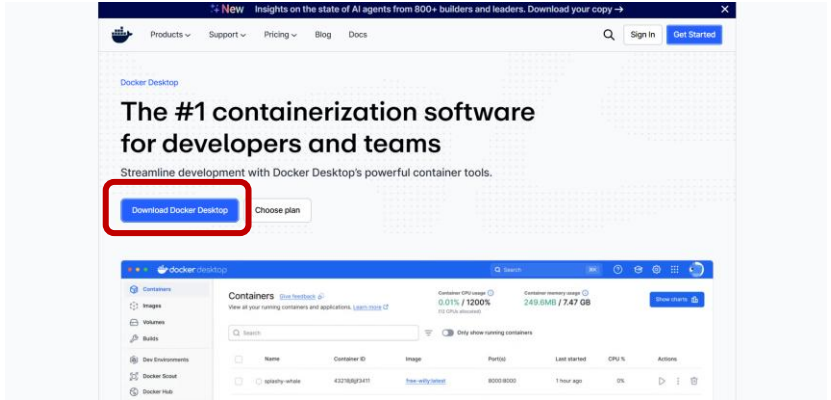

Figure 5: Click the “Download Docker Desktop”

Run and open it and wait for "Engine running" in the system tray.

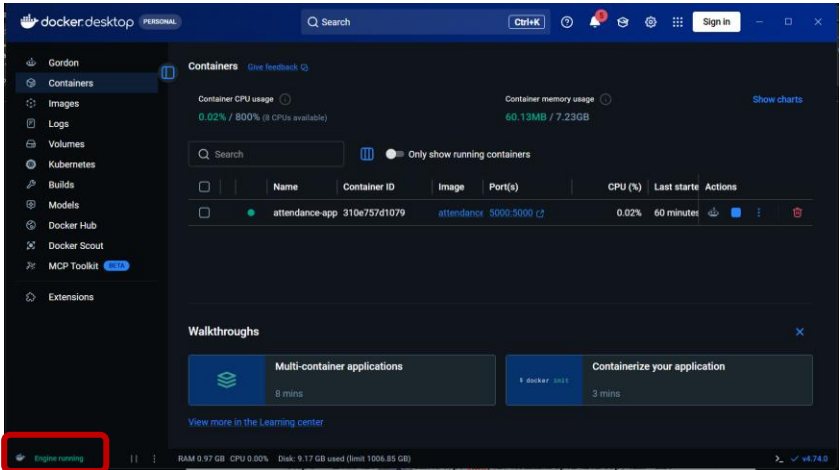

Figure 6: Docker Engine running

Step 2 - Locate the Attendance-app folder (e.g C:\Users\user\Documents \\Attendance-app)**

Select that location until they all highlighted, then type cmd and enter

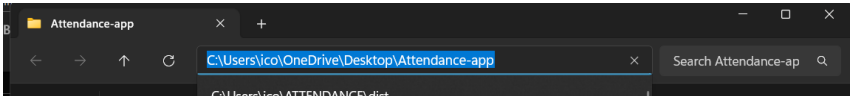

Figure 7: Select the Location

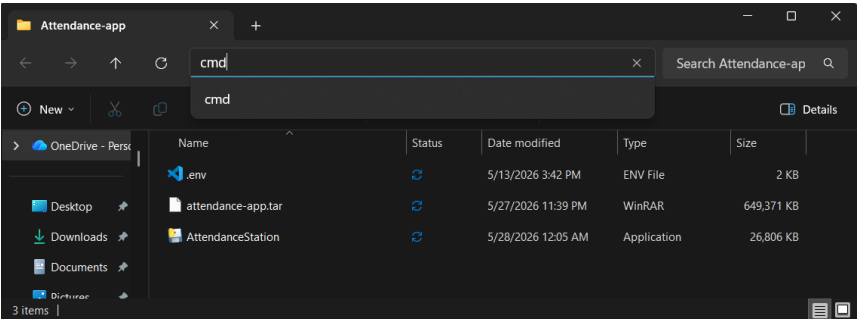

Figure 8: Type “cmd” then press “Enter”

Step 3 — Load the image: After type cmd, the terminal will open then copy this line below and run/enter and wait:

docker load -i attendance-app.tar

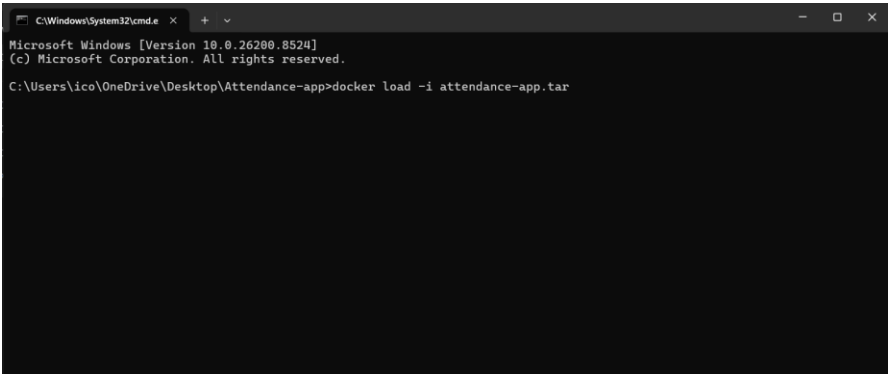

Figure 9: Wait for the terminal to load the “attendance-app.tar” docker image

Step 4 — Create a shortcut for convenience

- Right click the AttendanceStation.exe
- Then, more options → find "Create shortcut", you can see now
- "AttendanceStation - Shortcut"
- Copy that and paste in your PC Desktop/Home

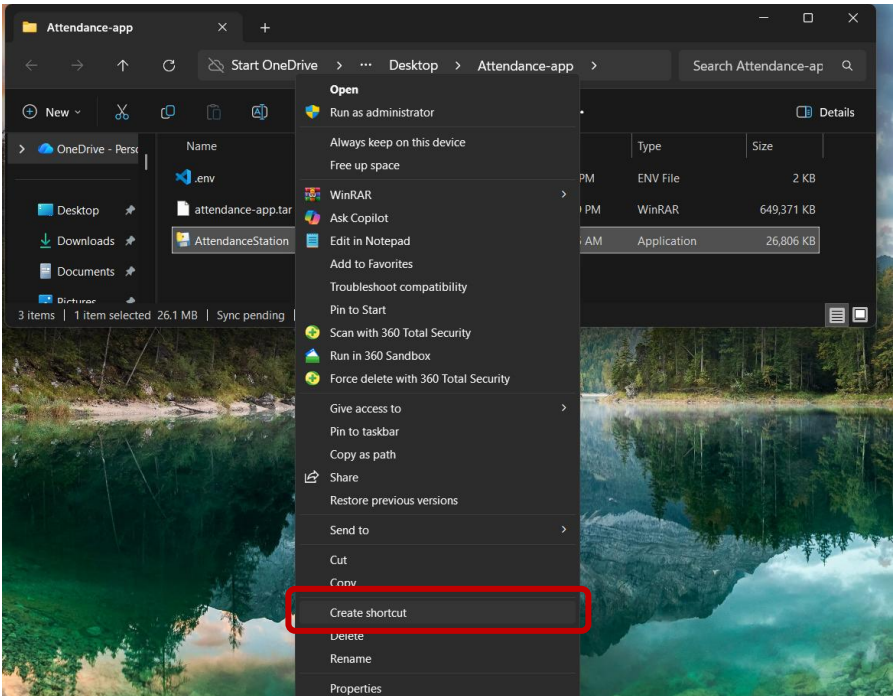

Figure 10: Create a shortcut

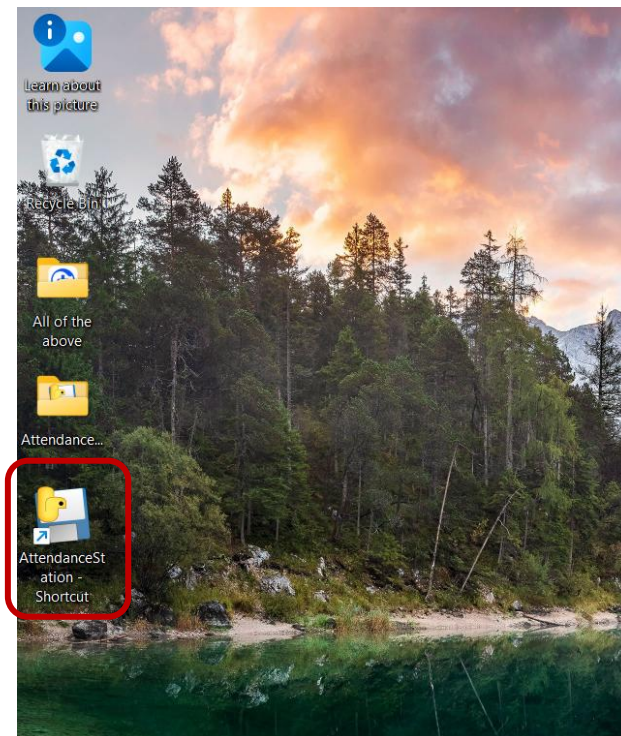

Figure 11: Paste to Desktop

PART 4 — Daily Use (Instructor)

Double-click AttendanceStation.exe → progress window → browser opens at localhost:5000 → done.

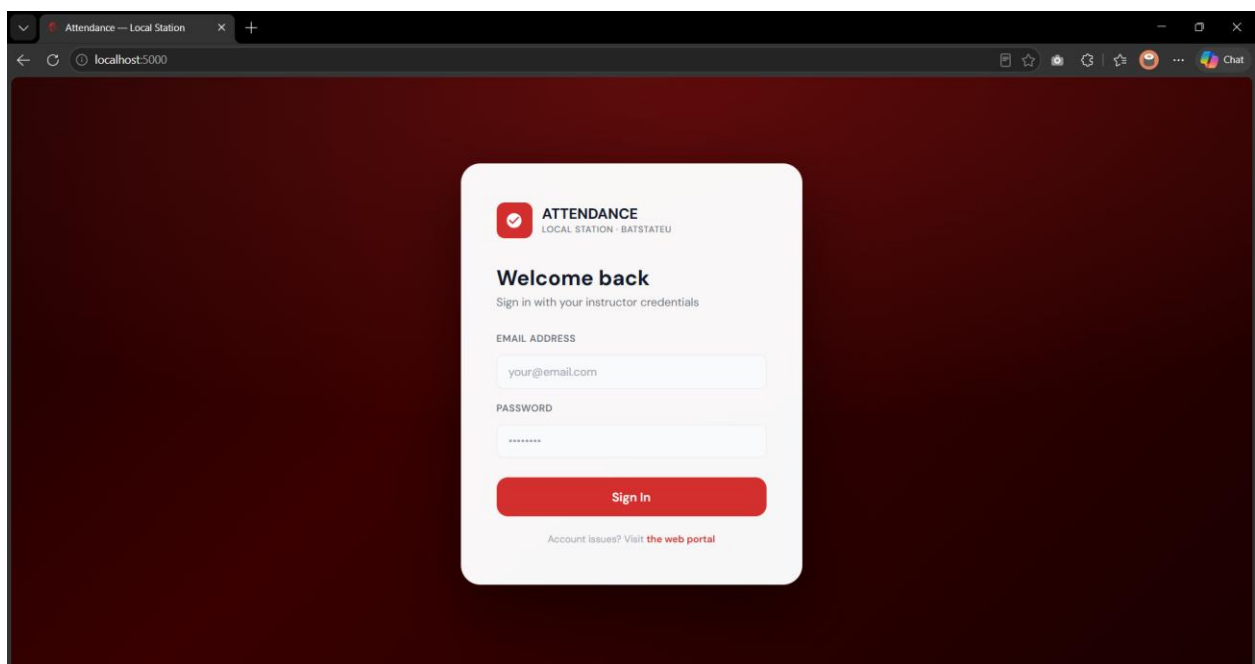

Figure 12: The Local App is now runnable
